IF THIS RESONATES

*If you read this and feel something click, the kind of click that says **this is the move**, apply to work with us at apply.cowboyclosers.com. We'll see if you're a fit, and if you are, we'll show you exactly how the rest of it works.*

What this is, and how to use it

This is the operating system the top earners inside Cowboy Closers run every single day. Eight sections. Print it. Stick it next to your laptop. Use it.

If you actually use it, three things will happen.

1. **You'll stop guessing what to work on.** Every day starts with a dashboard that tells you exactly what dial number you're on, what your conversion is tracking, and where your pipeline is leaking.
2. **You'll stop missing money.** Most closers leak £2K to £5K a month in commission they earned but never invoiced because their tracking is shit. This system catches every deal.
3. **You'll see your patterns.** After 30 days you'll know exactly which call type closes best for you, which time of day you perform best, and which objections you keep losing on.

Most closers fail not because of skill or effort. They fail because of tracking. Fix the tracking and the income takes care of itself.

The eight sections, in order of use

1. Set your goal in **Monthly Goals**
2. Log every call in **Call Log**
3. Track open deals in **Pipeline Tracker**
4. Check your **Daily Dashboard** every morning before calls
5. Review your week every Sunday in **Weekly Review**
6. Steal lines from **Script Library** when you're stuck
7. Use **Commission Calculator** to plan your income
8. Build your reputation in **Personal Brand Tracker**

Each section in this workbook explains what to track, why it matters, and how to fill it in. Print the pages you'll write on (Call Log, Daily Dashboard, Weekly Review, Monthly Goals) or recreate them in whatever tool you already use, paper, Google Sheets, Notion, doesn't matter. The system is what matters.

PIPELINE TRACKER

A simple status board for every open deal. Move each lead through the seven stages as they progress.

Columns:

1. **Booked**, call on the calendar, hasn't happened yet
2. **Discovery Done**, first call complete, no pitch yet
3. **Pitched**, offer presented, no decision
4. **Follow-up**, needs a touch (auto-flag at 48hr stale)
5. **Closed (Deposit)**, first payment received
6. **Closed (PIF)**, paid in full
7. **Lost**, explicit no

Properties on each card:

- Lead Name
- Deal Size
- Days in Stage (auto-calc)
- Next Touch Date
- Last Touch Note

Automation: Set up a calendar reminder to ping you on Slack/email if any deal sits in "Pitched" or "Follow-up" longer than 48 hours.

COMMISSION CALCULATOR

A simple calculator with editable inputs:

WHERE TO FROM HERE

Two *rules*. Use *it*.

The system is in your hands. The only thing left is the discipline to fill it in. Two rules separate the closers who hit £10K from the ones who keep daydreaming.

PATH 01

Rule 01

Log every call before you stand up from your desk. Not at the end of the day. Not on Sunday. Before. You. Stand. Up.

PATH 02

Rule 02

Do the Sunday review with a beer or a coffee, not at your desk. Change the environment, change the honesty of the review.

PATH 03

Want it live?

Run this system inside the Cowboy Closers community with weekly call reviews and an active accountability network.
